

POLLY PRODUCTS

**MADE IN USA
RECYCLED PRODUCT**

GREEN PRODUCTS FOR A GREEN WORLD

Polly Products is a member of the U.S. Green Building Council (USGBC). USGBC is the nation's foremost coalition of leaders from across the building industry working to promote buildings that are environmentally responsible, profitable, and healthy places to live and work.

All of Polly Products site amenities are manufactured in the USA using Recycled Plastic.

Here are a couple of examples of LEED eligible products, all of our products qualify.

This Cambridge bench is manufactured using 100% post consumer plastics.

MR 4.1 or 4.2 Recycled Material

Potential LEED credit; 2- points.

Click on USGBC emblem for more information page 51-52.

Bike Racks

**SS Credit 4.2: Alternative Transportation: Bicycle Storage
1 Point**

Click on USGBC emblem for more information page 12

GREEN PRODUCTS FOR A GREEN WORLD

The term Green Products is not new to Polly Products; our products were touted as green before being green was popular. Being green is a way of life at our facility. We have an in-house recycling program for office paper, corrugated, packaging, batteries, Styrofoam, etc., as well as an education program for all employees.

All of scrap generated in the process of molding & fabrication is turned to regrind and used to make new lumber and shapes. We create no waste.

Scrap Cutoffs

Regrind ready to mold into new products

We start our molding process by purchasing 100% Post Consumer Recycled Plastics, we then add colorant and UV stabilizers to protect the finished products from the damaging rays of the sun. The end result is maintenance free products that will provide years of carefree service to the end user. Not only is it maintenance free but is Eco-friendly and will not harm the environment in any way. Sustainability at its finest can be found in all Polly Products.
